

Manufacturer: Plasti-kote

Product: Enamel Spray Paint

DIRECTIONS

Before applying, practice on any discarded surface to get the feel of spraying. If the paint runs, you are spraying too closely or too heavily in one place. Remember that several thin coats are always better than one heavy coat.

1. Ensure surface is clean and dry
2. Mask surrounding areas on which the spray may settle, with newspaper or dust sheets. Shake well, listening for rattle of mixing ball, continue shaking for one minute afterwards and in use, for about ten seconds every one to two minutes.
3. Spray at room temperature 70°F (21°C).
4. Hold can 300 to 400mm from the surface while spraying and move can from left to right, holding can parallel to surface at all times. Press button firmly.
5. To prevent clogging after spraying, turn can upside down and press nozzle for about three seconds.
6. If spray nozzle is clogged, remove from can and run knife edge through tiny slit at end of spray button stem. Clear spray nozzle orifice by inserting pin. Do not insert pins or other sharp objects into valve opening of can.

PROPELLANT

Hydrocarbons

SAFETY DIRECTIONS: PRESSURISED CONTAINER

Store in a cool, well ventilated space away from sunlight. Do not puncture or incinerate this can, even when empty. HARMFUL by inhalation or in contact with skin. Irritating to skin. Ensure adequate ventilation while using.

FLAMABLE. Keep away from heat, sparks and naked flames. No smoking. Avoid contact with eyes or skin. Avoid breathing vapour or spray mist. INTENTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND INHALING CONTENTS CAN BE HARMFUL OR FATAL.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone: Australia 13 11 26; New Zealand 03 4747000. If sprayed on skin, wash thoroughly. If sprayed in mouth, give milk or water. If in eyes, wash out immediately with water.

IMPORTANT

Deliberate misuse of this aerosol to damage private property is a crime.

KEEP OUT OF REACH OF CHILDREN
